He is known for his teachers' training expertise too. He has an experience of 36 years and has been a recipient of two national awards for his contribution in the field of education

### **The Principal's professional style :**

The military leader, turned school Principal, Wg Cdr Mandal believes that if principal of a school can make the staff of the school happy and professionally contented, the school achieves its best. A Principal of school needs to skilfully blend the aspects of welfare and discipline of the staff. He needs to make the people professionally competent, willing to take challenges and lead them through their work. He needs to keep some element of challenge by keeping the institutional high; and at the same time he should that the staff have the feeling of ease. The environment of the campus should be filled with challenges; but the staff should not remain tensed. A Principal needs to be professionally sound and should understand his people, prepare them to take challenges. The Principals need to and guide the staff through for their work.

### The Indian National Open Memory Championship - 2019

#### Why Memory as a sport?

Our ability to remember is being eroded day by day. This is especially significant and dangerous as Memory is at the heart of everything we do - all communication, all creativity, all physical movement and all thinking - indeed at the very heart of our existence.

Hence, there is a need to train and practice memory as a sport, as a hobby so that we remain active throughout our life.

#### Why Memory Championships?

1. To promote Memory as a new Mind Sport, and in so doing to expand opportunities for mental athletes and Warriors of the Mind in India.
2. To redefine the art and the science of Memory by establishing new norms, benchmarks and records, and to provide certification and ranking for these norms.
3. To reintroduce Memory as a fundamental skill for early childhood education, thereby reinvigorating faith in, and enjoyment of Memory.
4. To reverse the global misconception that Memory deteriorates with age and demonstrate, by example, that it will continually get better.
5. To demonstrate that Memory is the basis of creativity.
6. To recover, validate and preserve for future generations the mnemonic systems of earlier human cultures and to revive the traditions of oral Memory.
7. To create a global community of like-minded individuals fascinated by exploring the power and potential of Memory and the human mind.
8. It is also designed to shed light on the need for unleashing that extraordinary, largely untapped, and crucial resource for the future benefit of humanity: the Power of the Human Brain.

# 10<sup>th</sup> INDIAN NATIONAL OPEN MEMORY CHAMPIONSHIP - 2019

9. To create Memory competitions which are truly global and human. The Indian National Memory Championship competitions are open to all people, regardless of age, race, religion, education, language, creed, gender or physical ability, and which promote the positive human values of understanding, mutual respect, open exchange, co-operation and harmony, leading to a greater probability of world peace.
10. To open up fresh and significant opportunities for mental athletes by providing recognition, employment and financial opportunities.
11. To create a global community and network of like-minded individuals; a community fascinated by the exploration of the power and potential of Memory and the Human Mind.
12. To provide deeper understanding of Memory and to spread this information globally as a resource for the benefit of all those who wish to understand and improve their own performance and Memory skills.
13. To defend the human brain against the dangers of relying on excessive tools and props.

### **2019 Championship :**

Memory is a skill and it can be learnt. Like any other skill that can be mastered, Memory can be improved at any time in life. A critical component of the brain's functioning; memory has always assumed significance in ones' day-to-day life.

Unlike physical sport, the mind sport is totally neglected in India. To spread this mind awareness and to contribute significantly to the intellectual empowerment and to showcase India's brain power to the World, the National Memory Council of India is organising Memory Championships every year. The National Memory Championship is a contest that tests the memory of all participants in various dimensions. Participants from India and abroad are eligible to take part in the Championship. This contest is conducted once in a year, and this year - 2019, the 10th Indian National Open Memory Championship is going to take place on 12th and 13th October, 2019, Saturday & Sunday at SJC Institute of Technology, Chickballapur, Bengaluru (India).

Memory Maestro and Multiple Guinness World Record Holder, Squadron Leader Jayasimha is the President World Memory Sports Council for India. His main aim is to develop India through mentally healthy people. The mental health depends on how much we train and exercise our brains. Hence, exercising our mental muscle from an early age would definitely enhance creativity, memory power and enhance maximum brain usage.

### **National Memory Council of India:**

Development from various dimensions is what enables the progress of a society. Building a better future generation is what is needed to reinforce step into a new zone of development. On those lines, Squadron Leader Jayasimha has taken an initiative to form a National Memory Council whose objective is to contribute to the mind development of the younger generation. Already well-established as a trainer, Jayasimha, the multiple Guinness World Record holder, conducts public workshops on creative memory, art of parenting, motivation, leadership and self-improvement. With the National Memory Council, the vision is to reach out to a wider section of the society to create awareness and to communicate the need and significance of mind development.

India is the latest addition to the list of affiliate countries under World Memory Sports Council. And hence the council is young. The council is recognized and licensed by the World Memory Sports Council to now authenticate and publish the National Rankings in the Sport. NMCI is now an independent body governing the mind sport of memory in India. It now regulates competitions throughout India and also provides training to anybody willing to take part in the competition. The body also assumes the responsibility of letting the sport permeate through the system, and to make this a brand vehicle to communicate to the world, the power of an Indian mind.

## **Authorized Training Centre For the Championship:**

Participation without preparation means no value addition. With an estimate that the contest would have five hundred trained participants, the contest would definitely be intense. Every participant is hence suggested to undergo training before taking part in the contest. The training is not only aimed at making a participant fare good in the standings published at the end of the event, but also at holistically improving the way the dynamics of the participant's mind work. The training services are available round the year and make them proficient at different levels. The participants are suggested to keep in contact with our authorized training centres to update their competencies regularly.

Jayasimha Mind Education, an establishment by Squadron Leader Jayasimha is an authorized training centre in Hyderabad. To avail the training services you may contact them on 9885157228 or 8328258445 or 9866018989 or visit our website [www.jayasimha.in](http://www.jayasimha.in) or mail us at [visionjay@gmail.com](mailto:visionjay@gmail.com)

# **10<sup>th</sup> INDIAN NATIONAL OPEN MEMORY CHAMPIONSHIP - 2019**

The Winner of National Memory Championship-2019 is declared on the basis of maximum points scored by the contestants after the completion of all the ten memorizing events.

The winner will be awarded the title, "Indian National Memory Champion - 2019".

The Winner will also be awarded Rs 1,00,000/- and the First Runner up Rs 50,000/- and the Second Runner up Rs 25,000/- as the prize money.

"Certificate of Participation" in National Memory Championship -2019 will be awarded to all the contestants.

The contestants would be awarded World Memory Rankings depending on their performance

Since, India and China will both be using the International Open format, the competitors from India and China should first participate in either of these international open competitions.

In other words, an Indian competitor should take either Indian Open or China Open before he/she registers for World Memory Championship final. Indian and Chinese competitors will be given priority in entering the 2019 WMC, for there will be limited number of entrants this year.

This will be good platform for all the Indian Memory Athletes to practice and prepare for the World Memory Championship 2019 to be held at Wuhan in China in December 2019. All the Indian Memory athletes to note here that without participation in the Indian or Chinese National Memory Championship, you will not be permitted to compete in the World Memory Championships.

## 10<sup>th</sup> INDIAN NATIONAL OPEN MEMORY CHAMPIONSHIP - 2019

- Contestants may bring their own clocks to monitor the time during each event. Beepers/buzzers etc. must be switched off during each event.
- Mobile phones must also be switched off.
- The contestants are required to bring their own pens/ pencils, erasers, sharpeners, water bottles, if need be.
- As total silence during competition cannot be guaranteed, contestants may bring ear plugs, headphones and other noise reducing devices.
- Contestants may leave their tables to use the washroom at any time during memorisation. They must leave/return to the room quietly without disturbing any contestants.
- Each contestant must maintain silence during each event.
- When the time allotted for memorisation is over, the adjudicator will announce "Stop memorising, turn your papers over". At that point all contestants must stop memorising and turn all memorisation papers, together with any paper used to make notes during the event, face down on the table in front of them. The adjudicator will then clear the desk of all papers and will provide blank recall sheets.

### **Recall:**

- Once the adjudicator provides the recall sheets to the contestant, they must ensure that their names/ Registration Numbers are clearly marked on every recall sheet.
- Once the adjudicator is happy that everyone has a recall paper, he will start the recall period by saying "You may begin recall". At that point, the official timer will be started.
- Contestants may hand recall sheets to the adjudicator and quietly leave their table at any time during the recall period.
- Once a contestant has left the table during the recall period, that contestant will not be permitted to return to continue and if they have not already done so, must submit their papers to the adjudicator.
- It is the responsibility of each contestant to ensure that their recall papers are clear and that potential misunderstandings are clarified by writing notes to explain the meaning of an answer or by pointing it out to the adjudicator when the paper is collected.
- No other changes to the recall paper will be allowed once it has been handed to the adjudicator.
- The adjudicator's decision is final; however, if there is any doubt about the meaning of a contestant's answer, the contestant will be asked to do the following:

### **EVENT RULES - National Competition (10 Disciplines)**

| <b>Event 1</b>          | <b>Memorising Random Words</b>  |
|-------------------------|---|
| <b>Aim</b>              | To commit to memory and recall as many random words as possible.  |
| <b>Time to Memorise</b> | 5 Minutes   |
| <b>Time to Recall</b>   | 10 Minutes  |
| <b>Question Paper</b>   | <ol style="list-style-type: none"><li>1. A list of nouns organised in columns of 20 with 5 columns to a page.</li><li>2. Two Pages of words (maximum of 200) are provided.</li><li>3. Contestants must start at the first word of column 1 and remember as many of the words as possible.</li></ol>   |
| <b>Answer Paper</b>     | <ol style="list-style-type: none"><li>1. Contestants must write down the list of words on the paper provided.</li><li>2. Contestants may use blank paper if they wish but each word must be clearly numbered and the start and finish of each column of words easily identifiable.</li></ol>  |
| <b>Scoring</b>          | <ol style="list-style-type: none"><li>1. A point is awarded for every word in a complete column where all 20 words are correctly spelt.</li><li>2. One mistake (including any gaps) in a column of 20 words gives a score of 10 for that column (20/2).</li><li>3. Two or more mistakes (including any gaps) in a column of 20 words scores 0 for that column.</li><li>4. For the final column only - If the final column is partially complete, a point is awarded for each word if everyone is correctly spelt.</li></ol> |

### Discipline 6. Speed Numbers

#### Aim

To commit to memory as many random digits (1, 3, 5, 8, 2, 5, etc.) as quickly as possible, in complete rows of 40 digits, and recall them perfectly.

Note: there is a break after the recall phase of Trial 1 to allow for scoring of the first attempt. Competitors are advised of their results before attempting the second trial.

# NATIONAL MEMORY COUNCIL OF INDIA

## 10<sup>th</sup> INDIAN NATIONAL OPEN MEMORY CHAMPIONSHIP - 2019

### Memorisation

1. Computer-generated numbers are presented in rows of 40 digits with up to 25 rows per page.

### Recall

1. Competitors should use the Recall Papers provided.
2. If a competitor wishes to use his/her own Recall Papers, these must be approved by the adjudicator before the competition. Competitors must write their recalled numbers in rows of 40 digits.
3. It must be clear how the rows presented on the Recall Paper relate to the rows on the Memorising Paper (missing rows must be clearly indicated).

### Scoring

1. 40 points are awarded for every complete row that is correctly recalled in order.
2. For every complete row of 40 that has a single mistake in it (this includes a missing digit), 20 points are awarded for that row.
3. For every complete row of 40 that has two or more mistakes (including missing digits), 0 points are awarded for that row.
4. There is no penalty for missing rows.
5. For the last row only. If the last row is incomplete (e.g. only the first 29 numbers have been written down) and all of the digits are correct, then the points awarded will equal the number of digits recalled (29 in this example).
6. If the last row is incomplete and there is a single mistake (this includes a missing digit), then the points awarded will equal half the number of digits recalled.
7. For an odd number of digits, the fraction is rounded up e.g. if 29 and there is one mistake, the score is divided by 2,  $29/2 = 14.5$  and rounded up to 15.
8. For two or more mistakes in the last row (including missing digits), 0 points are awarded for that row.
9. The winner of the discipline is the competitor with the highest score (the best score from the two attempts is put forward).

10. In the case of tied winning scores, the winner will be the competitor who has a better second trial. If the competitors are also equal in this second trial the adjudicator will look at the extra lines of the best trial of each competitor (The lines the competitor tried to recall but for which he/she got 0 points). For every correctly positioned number, 1 decision point will be given. The competitor with the most decision points is the winner.

3. For example if a contestant recalls 97 digits but makes a mistake at the 43rd digit then the score will be 42. If a contestant recalled 99 digits but made a mistake on the first digit the score would be 0.
4. The winner of the event is the contestant with the highest score.

### Discipline 10. Speed Cards

#### Aim

To commit to memory and recall a single pack (deck) of 52 playing cards in the shortest possible time.

There are two attempts at this discipline with a 'fresh' deck provided at each trial.

| Time        | National<br>(Speed) |
|-------------|---------------------|
| To memorise | 5 minutes           |
| To recall   | 5 minutes           |

#### Memorisation

1. A freshly shuffled pack (deck) of 52 playing cards. The competitor must provide his/her own cards; these must be shuffled by the adjudicator before the competition.
2. Competitors who expect to memorise the complete pack (deck) of cards in less than 5 minutes:
  - a. Must inform the adjudicator so that a timekeeper with a stopwatch (capable of measuring 1/100 of a second) can be assigned and
  - b. Must agree with their invigilator an appropriate signal that indicates they have finished memorising.
  - c. Alternatively, a Speed Stacks timer may be used under supervision of an Arbiter/invigilator.
  - d. All mobile phones, iPads or similar mobile devices are banned from the competition room during this discipline.

# NATIONAL MEMORY COUNCIL OF INDIA

## 10<sup>th</sup> INDIAN NATIONAL OPEN MEMORY CHAMPIONSHIP - 2019

3. Competitors may start memorisation at any point during 5 minute memorisation period.
4. The cards can be looked at repeatedly and more than one card can be looked at simultaneously.
5. The deck of cards must be in clear sight at all times - wrists must be kept at desk level wherever possible.
6. Competitors must not begin recalling their pack until the adjudicator has announced that the 5 minute recall period has commenced.

### Recall

1. After the memorising phase, each competitor gets a second pack of cards which is in perfect order (i.e. 2 Hearts, 3 Hearts, 4 Hearts, etc. and 0 Earth, 1 Earth, 2 Earth for Arabian Memory Cards). The competitor has to order this second deck of cards in the same sequence as the pack just memorised.
2. The packs will be clearly identified as the first or second (recall) pack.
3. After the recall phase, both decks will be put beside each other on the table, the top card being the first one memorised.

### Scoring

1. The Arbiter will compare each card from the memorised pack with each card of the recall pack. At the first discrepancy between the two packs, only the cards up to this point will be counted.
2. The competitor who correctly memorises all 52 cards in the quickest time wins the discipline.
3. If a competitor recalls less than 52 cards, the memorisation time will be taken as 300 seconds and they will receive a score of  $c/52$  points where  $c$  is the number of cards correctly recalled.
4. Scores will be calculated using the following formula for a complete deck of cards correctly memorised:

$$11180/(\text{time to the power of } 0.75)$$

This gives 1000 points for a deck recalled in 25 seconds.

5. The best score from the two attempts counts.
6. In the case of tied winning scores, the best score of the other trial will decide the winner.
